**Food and Drink Policy**

The University Libraries' Food and Drink Policy is intended to prevent damage to library materials, computer equipment, and furnishings while allowing for the maintenance of a comfortable environment for patron use. Food and drinks are allowed in the public areas of the Libraries under the guidelines listed below.

**Food** is limited to pre-packaged or wrapped snacks for individual consumption. Group meals, fast food, or open plates of food are not allowed. Food deliveries to the Libraries are also not allowed.

**Drinks** are limited to spill-proof containers such as travel mugs and beverage bottles with drinking spouts. Food and drinks are not allowed at computer workstations or in either the Information Literacy Suite (Room 206 B) or Specials Collections (Room 103).

Patrons are expected to dispose of trash in appropriate containers and report any spills to library staff immediately.
